COMMENTS:

I object to these plans. Shinfield has already had an enormous amount of new houses built over the last few years. We have no extra doctors or dentists, the primary schools are already oversubscribed without the additional burden of these extra houses. There isn't a good secondary school in the area so residents have to hope their children get into the Wokingham schools further out, this is less likely with extra housing too.

The roads at rush hour are already ridiculously busy, we do not need extra cars on the roads.

Hyde End Road is already dangerous enough without additional traffic using it.

Shinfield has taken more than its fair share of housing, it's time that it was left alone with the remaining fields staying green

.
