COMMENTS:

I wish to object to this house being extended even further. The first extension turned a bungalow into a huge house, which appears to be taller than any of the surrounding houses and overlooks my garden, thus limiting my privacy. I note there is planning for 4 parking spaces - is this house becoming a HMO?
There is also an extremely bright security light which shines into my garden, which I hope will not be added to any other extensions, bringing it closer to my back garden
