Subject: Site visit.

To: cgajoslyn@gmail.com <cgajoslyn@gmail.com>

Hi

I was contacted by Carolyn joslyn and asked to visit her parents house at 16 charlton close rg40 4yq, to share my opinion on possible works.

In the rear of property, a mature oak. Tpo T15. 819/1996

The tree is in the back right hand corner of the garden. It's canopy dominates both the namely garden, the neighbours, and hangs over Nash grove lane at the rear. Obvious signs of previous pruning. Some over extend lateral branches and deadwood present.

At this time I think the following works would be necessary.

Remove major deadwood (50mm and above)

Reduce branches touching the cables on nashgrove lane.

Remove epicormic growth from the stem

Thin the remaining canopy by approximately 15%.

All pruning cuts to be to bs3998

Kind regards

Josh chamberlain arborist
