Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

- ☒ Yes
- ☐ No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

The proposal comprises the conversion of the existing garage into habitable accommodation forming part of the dwellinghouse, internal reconfiguration of the existing layout, and the replacement of the existing lean-to roof over the rear extension with a new flat roof. The garage conversion will primarily involve internal works, with any external alterations limited to the replacement of the garage door with a window or walling finished in materials to match the existing dwelling. The replacement flat roof will not increase the overall height of the existing rear extension beyond permitted development limits. No enlargement of the building footprint is proposed. No changes are proposed to site access, boundary treatments, or drainage, which will remain as existing.

Does the proposal consist of, or include, a change of use of the land or building(s)?

- ☐ Yes
- ☒ No

Has the proposal been started?

- ☐ Yes
- ☒ No

Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

The property is in lawful C3 (dwellinghouse) use and has been continuously occupied as a single private residence. The existing garage and rear extension form part of the lawful residential curtilage of the dwelling. The building is lawful and not subject to enforcement action. The proposed works do not involve any change of use of the land or buildings.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

Select the use class that relates to the existing or last use.

C3 - Dwellinghouses

Information about the proposed use(s)

Select the use class that relates to the proposed use.

C3 - Dwellinghouses

Is the proposed operation or use

- ☒ Permanent
☐ Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

The proposed works fall within the scope of permitted development under the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

The garage conversion does not constitute development requiring planning permission where the works are internal and do not materially affect the external appearance of the dwelling. Any minor external alterations are permitted under Class A of Part 1, Schedule 2, as they involve alterations using materials of a similar appearance to the existing dwelling.

The replacement of the existing lean-to roof with a flat roof constitutes an alteration to the dwelling permitted under Class A, provided it does not result in an increase in height beyond the original roof or exceed the relevant dimensional limits, which is not proposed.

The internal reconfiguration does not constitute development under Section 55 of the Town and Country Planning Act 1990.

As the proposal involves alterations to an existing lawful dwelling without enlargement beyond permitted development limits or any change of use, it constitutes permitted development, and a Lawful Development Certificate should therefore be granted.

With respect to the Authority, is the applicant and/or agent one of the following:
