COMMENTS:

I firmly object to this application. This area does not have enough amenities (shops, doctors surgeries, roads even) to handle the extra 200+ people and ~125 cars. School Road was purposefully closed to through traffic to reduce the number of cars on the road, this will increase the traffic. School drop off and pick up is already busy - this will make it even busier. This area has had enough new houses in recent years, let's build some elsewhere.

Modifying the number of houses in the application does not materially change it from the previous application. The issues remain.
