COMMENTS:

I have no objection to the slight changes being proposed in the revised plans as far as the house itself is concerned. I object to the installation of the gate on highways safety grounds. Reading Road is an extremely busy road, with a cycle path. The gate is proposed to be inset by only 2.25 m from the original fence. Even allowing for the slight set back from the road of the original fence, I do not believe there is enough space for an average sized care to get off the road while waiting for the gate to open. Therefore i believe the installation of the gate is contrary to highway safety.
