COMMENTS:

I know my home address says otherwise but my parents home is in kestrel way and I'm there regularly. So impact on their home would affect me too. The proposed plans are not in keeping with surrounding properties in the area. It would greatly impact on houses immediately surrounding In kestrel way and walnut close. This property already has quite a few cars and not enough parking for any more, they already park on the road in surrounding area sometimes inconsiderately. I believe extending the property in this way will be for multiple occupancy, expansion of business space in a residential home, and the addition of more cars that there already isn't the space to park.

I strongly object to the planning for being out of character for the area and detrimental to surrounding properties and occupants.
