COMMENTS:

I have real concerns about the traffic and parking in the area if consent is given to this request. I do not believe 14 parking spaces to be sufficient if there are to be 70 attendees at busy periods. I also want it acknowledged that Reading Road and Winnersh roundabout already suffer from extreme congestion due to the number of cars in the area - exacerbated by regular flooding - and I don't believe that any scheme to add more vehicles to this area can be endorsed for this reason.
