COMMENTS:

I would object to the proposed development.

It would spoil a beautiful natural rural field where I often walk with my wife.

The proposed development would appear to be at odds with the Wokingham and Finchampstead neighbourhood development plans also ie p1,cp3,cp4,cp6,cp9).

It would also be detrimental to the local infrastructure re-water displacement,sewage disposal and most other local services ie health and transport facilities,school facilities etc etc.

It would effect a nature reserve near by,the field itself is "full" also of its own flora and fauna which would be spoilt. It's my opinion this would amount to an act of rural vandalism,nothing less.

Yours faithfully
William Gilmore
