COMMENTS:

I am writing to object to the proposals in planning application 242067.

The site is outside the limits of the Local Plan. There are other sites that should be prioritised for development over this one, which would be to the detriment of the broader community.

Adding 200-250 more cars into the village would significantly increase the volume of traffic.

The field has flooded several times in recent years. The flood assessment appears to rate the site as low risk, but how can that be the case, when it regularly floods? The water has to go somewhere.
