COMMENTS:

It is good that it is being proposed to use the land for educational purposes, but I think it would be better to provide a sixth form unit to service the Oakbank School. There is a lack of secondary school provision for the number of children in the area and having the ability to continue into further education without having a significant journey would be beneficial and make Oakbank a more attractive school for the current primary school age children in the new estates in Spencers Wood and Shinfield.
