

CONSULTATION RESPONSE – 250918 Strowdes Estate Culham Lane Remenham RG10 8NU, with respect to application 213587

Condition 3 Archaeology

I have reviewed the WSI *Scheme of Archaeological Work, Project Conway Park Place Remenham Berkshire*, which relates to Planning Applications 213587, 213588, and 213610, dated November 2024, and recommend it be accepted.

I have also noted the trench plan summary additionally submitted, however as a *full report* of the archaeological mitigation undertaken is required

I DO NOT recommend full discharge yet.

The trench plan summary is not sufficient to fully document the findings of the work undertaken and a report should be completed and submitted, as stipulated in the WSI for this site, before discharge of the archaeological condition.

Kind regards
