

WBC Planning Application 250517

Good Afternoon,

Thank you for your e-mail.

Having reviewed the application and documents attached there is missing information relating to the school, commercial and Doctors surgery. There are no SQM figures available and no pupil numbers for the primary school.

Without this we are not able to provide a formal response, we need this to understand if we have capacity for surface and foul water.

I look forward to hearing from you.

Kind Regards,

Saira Irshad
