COMMENTS:

i object to this application. the positionong of the site directly next to the nature reserve and country park is a recipe for disaster. any leak would threaten a fragile ecosyatem and threaten rare a species of flora and fauna. the road and adjacent narrow pavement leading to the site are not equipped to deal with high volume of lorries which will be travelling to the site and may lead to accidents - of particular conncern for the schoolchildren and cyclists uaing this route. the countryside around will alao be poluted by the smell of the fuel which again will be detrimental to the local nature and also to those of us who regulalry use this area for our mental and physical wellbeing.
