The proposed scheme is to replace the existing flat roofs and repair the two pitched roofs. All of the proposed works are to the rear sections of the property. There is no intention to make any structural modifications although the insulation across the flat roofs and the void of the pitched roofs will be reinstated in line with current building regulations. The insulation for the pitch roofs will achieve a U-value of 0.18 W/m²K whilst the insulation for the flat roofs will achieve a U-value of 0.20W/m² ensuring thermal efficiency and minimising heat loss.
