COMMENTS:

As the developers well know this site is surrounded by residential property and this extension of hours would make their lives a misery, keeping children awake, stopping those who go to bed earlier than 11 awake and generally giving us no relief from the noise and vehicles. The wider area would also be impacted by noise from workers going home. I can't even think why this was put forward unless to try to wear out those of us arguing for a reasonable quality of life and some peace and quiet.
