COMMENTS:

We would be directly affected as the proposed extension would: 1)
overlook into our house/garden
2) impinge on our privacy
3) cause loss of light into our property especially the morning
sunlight that fills our bedroom.

The property has already been extensively developed from a 3 bedroom
into a 5 bedroom house (as recently advertised with a local estate
agent) and a further extension would not be in keeping with the
local
area.

If the house is further extended it is likely to have more cars and
as this house is located at the end of a spur road it will cause
parking issues for a 7-bed house.
