APPRAISAL

Context: The application site is situated within a residential area of Woodley. This application seeks planning permission for the erection of a single storey extension to the rear of the existing dwelling.

Principle of Development: The National Planning Policy Framework has an underlying presumption in favour of sustainable development which is carried through to the local Development Plan. The Managing Development Delivery Local Plan Policy CC01 states that planning applications that accord with the policies in the Development Plan for Wokingham Borough will be approved without delay, unless material considerations indicate otherwise.

The site is located within settlement limits and as such the development should be acceptable providing that it complies with the principles stated in the Core Strategy. Policy CP3 of the Core Strategy states that development must be appropriate in terms of its scale of activity, mass, layout, built form, height, materials and character to the area in which it is located and must be of high quality design without detriment to the amenities of adjoining land uses and occupiers.

Character of the Area: The proposed single storey rear extension would be a sympathetic addition to the host dwelling. The modest scale of the structure and position to the rear of the property would reduce its impact on wider character. As such, the proposal has demonstrated compliance with policies CP1 & CP3 of the Core Strategy.

Neighbouring Amenity: The proposed extension would only slightly extend beyond the rear of the existing extension at the adjoining property, No.200, which coupled with the development's modest height, would appropriately mitigate any impact upon the amenities of the neighbouring residents.

Highway Access and Parking Provision: WBC Highways have reviewed the application and raised no objection.

Conclusion: For all the above, the proposal is acceptable, and the application is recommended for approval.

Community Infrastructure Levy (CIL): When planning permission is granted for a development that is CIL liable, the Council will issue a liability notice as soon as practicable after the day on which the planning permission first permits development. Completing the assumption of liability notice is a statutory requirement to be completed for all CIL liable applications.

The Public Sector Equality Duty (Equality Act 2010): In determining this application the Council is required to have due regard to its obligations under the Equality Act 2010. The key equalities protected characteristics include age, disability, gender, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief. There is no indication or evidence (including from consultation on the application) that persons with protected characteristics as identified by the Act have or will have different needs, experiences, issues and priorities in relation to this particular planning application and there would be no significant adverse impacts as a result of the development.

RECOMMENDATION

Conditions agreed:	Not required
Recommendation:	Approve
Date:	17 January 2025
Earliest date for decision:	17 December 2024
