COMMENTS:

We strongly object to the above application,,, the proposed building is absolutely not in keeping whatsoever with the rest of the North court build on the estate, plus we are not at all happy about the fact, that all the additional traffic contributed by the build will put enormous pressure on the driveway structure , , and cause enormous inconvenience to all of the North court residents,,plus all the huge amount of noise and considerable disturbance and inconvenience during construction,. It would also raise great risk of damages to the entry gate, fencing & the property overall.
