Comments On Proposal

While the total numbers of habitable rooms cannot be identified from the plan, it is a single storey extension, and the plan indicates no change in the numbers of habitable rooms on ground floor.

Both the existing and proposed garage do not meet the council's parking requirements for car parking, so there is no additional or loss of parking provisions. The extension will not affect the existing driveway.

It is therefore expected that there will be no additional demand for car parking and no reduction in parking provisions.

The proposed garage remains suitable for cycle storage, which is acceptable.
