COMMENTS:

We did not have to opportunity to review the submission before it was submitted. Having reviewed the plans we are objecting on the grounds that the planned storage facility is very high for a single story extension and very long. This will significantly impact the view and light from our house. We have raised our concerns with Mr Liu and he confirmed that the plans were bigger than he was expecting. Mr Liu has spoken to his agent and it was expected that updated plans would have been submitted on the 3rd / 4th August. Mr Liu encouraged us to object to the planning application.
