COMMENTS:

I am really worried of the impact on Mole road... already this road often has alot of businesses which causes people to park on the road and school access which causes alot of congestion in the mornings and evenings. It really is not wide enough to potently cope with all this extra traffic. I know you will approve this developement anyway, you always do without listenening to community concerns. Also where is the extra water provision for these houses ? are you building more reservoirs whilst working with local water companies ? We are already sufferreing from hose pipe bans in the summer, this will compound the issue more. Our Medical services cant cope, even with these new
drs/surgeries you talk of.
