COMMENTS:

As an owner of North Court for 20 years I would like to object to the proposed building of the above planning. I have concerns that the proposed building does not seem to be in keeping with the local area planning. I also have fears that large vehicles that invariably come with building a property, entering and leaving the path to the site will add to the already precarious situation of local traffic. In the last few weeks we had numerous road accidents within 100 meters of this site. Invariably, the local wild life that we are blessed with, will be affected.
