COMMENTS:

I note that the occupant of 37 Caribou wants to erect a fence within the hedge boundary. To do this would ruin the aesthetic of the three houses, 36-38 Caribou Walk, not to mention the whole of Caribou Walk. I see from the application that the occupier is wanting to enclose it and rest ProtectaPet cat fencing. This would make the front of the house look like a prison and once again, would completely ruin the whole aesthetics of the area.

The newly built third floor already ruins the aesthetic, and to do further would ruin the looks of all the houses in that row. The existing outdoor furniture, sheds and other stuff already placed at the front of 37 look out of place and also makes the outside look messy so to further change the front would not be beneficial to the immediate area and would also cheapen the area.
