Application Number: F/2002/7924

Appraisal:
The application is for a proposed change of use from a vacant A1 shop to A2 Financial and professional services use. The building in question is located in Wokingham Town Centre, Wokingham Conservation Area as well as being within an existing retail area and secondary shopping frontage. The shop is situated within a two-storeyed terraced parade of 12 units. It has a ground floor area of approximately 120sqm (inclusive of an existing W.C/bathroom facility). The application is relevant to the ground floor only and currently the premises is occupied by a music shop.

No material change to the exterior of the building will take place as part of this application and the number of staff is not yet known.

Policy WSH5 states that in order to maintain and enhance the vitality of the retail area of Wokingham Town, proposals for change of use of a retail unit to a non-retail use will be determined according to certain factors. It is considered that the proposed change of use is one that does provide a service to visiting members of the public (factor A). However the site does have a location of prominence within the frontage (factor D) and is designated as part of the secondary frontage.

1. Impact upon neighbouring properties
The building already exists and therefore there will be no overbearing, overlooking or day-lighting issues. It is therefore considered that there would be no further significant detrimental impacts upon neighbouring properties arising from this development, as compared to the previous occupiers and approved A1 uses.

2. Impact upon the amenity of the Conservation Area and Town Centre
The site is located within the Wokingham Conservation Area. There is no change to the external features of the building as part of this application. The Conservation Officer considers there to be no impact on the surrounding conservation area.

The change of use from retail to a A2 use must be carefully considered because it is essential that retailing is maintained as the principle function in town centres – especially in areas designated as primary frontage. Excessive incursion of non-shopping uses into the town centre will result in the loss of town centre character and vitality. In principle some non-shopping uses are appropriate within areas that are primarily occupied by shop uses. To exclude all non-shopping uses over wide areas would be inappropriate, as variety and activity are essential to the health of town centres and allow multi-purpose trips. Financial and Professional services are considered to support the main shopping activity. Policy WSH7 states that a change of use from A1 to A2 will be acceptable in principle in a secondary frontage where the proportion of retail uses is sufficient to sustain a predominantly retail function and character in the frontage. Out of the 12 shops in this particular terraced parade, there is:

- A Spanish restaurant (A3);
- A Fabric/Wall hanging showroom/shop (A1);
- A Flooring showroom/shop (A1);
- A vacant premises (subject of this planning application);
- A Kitchen/Bathroom showroom/shop (A1);
- Music shop (A1);
- Hair salon (A1);
- Video rental shop (A1);
- An Indian restaurant (A3);
- A copying shop;
- A security shop; and
- a fire place shop (A1).

The vacant shop currently has an application to change to A3 use. This illustrates that even with two shops potentially changing use (this application and application F/2002/7923), there will still be a predominantly retail function and character to the parade frontage. This is in line with policy WSH7 of the Wokingham District Plan.

Policy WSH21A of the Wokingham District Plan (Deposit Draft) pertains to Wokingham Town Centre. This specifically states that the Council will seek to retain and enhance the historic market town character of Wokingham and maintain its position as a major town centre in the retail hierarchy by strengthening the retail character of the town centre especially within the existing shopping frontages. Supporting text to this policy in paragraph 8.69C specifically states that the Council will work with the Wokingham Initiative for town centre management to help strengthen the retail character of the town. To achieve this, it is proposed to resist the loss of A1 retail uses in premises in primary and secondary shopping frontages. The proposal will result in a change from A1 use to A2 in the secondary frontage. However it is considered that the frontage is near the edge of the town centre and will not impact on the retail function of the town centre overall.

It is therefore considered that the change of use away from A1 would be acceptable in this location as it would not detract from the retail character of the surrounding area.

3. Impact upon highway safety
The highways officer is satisfied the change in use will have no significant further affect on highway safety.

---

The proposed site is located within the retail centre of Wokingham Town Centre. Policy WSH5 states to maintain and enhance the vitality and viability and essential retail character of the town centre proposals to change of use away from A1 will be allowed only in certain circumstances. This would be where:

- The proposed use should be one that primarily provides a service to visiting members of the public
- Where a clustering of non-A1 uses will not occur
- Exceptions may be acceptable where there are long term vacancy levels
- The proposed change will not result in an adverse visual impact of the conversion
- There will not be an adverse effect on the vitality and viability of the street and shopping centre as a whole

The site is located within a secondary shopping frontage. Policy WSH7 states that change of use from retail is acceptable where the proportion of retail uses is sufficient to sustain a predominantly retail function. There are existing A3 and A2 uses along the parade. There is concern that the change of use from A1 in this unit may detract away from a predominantly retail character of the area.

See 7923

Other relevant policy is WSH17 related to proposed environmental improvements.

Therefore unless evidence is produced relating to proposed levels of activity or long term vacancy rates then the principle of change of use away from retail use is contrary to policy.

Ref: Application No's F2002/7923 & F2002/7924

We refer to the above applications in respect of Molyneaux Securities (Metropolitan) Ltd regarding their properties at 60 and 64 Peach Street, Wokingham.

7923 requests change of use from A1 to A3. Already we have in this parade of shops two restaurants and a further 4 within shouting distance.
Likewise 7924 requests A1 to A2.

Effectively, these change of use requests, would reduce this parade of nine shops to just two conventional shops plus a hairdresser. We are already aware that there is at least one retailer who would like to move into one of the premises. It would, however, appear that the continual requests on planning applications for A3 usage stems only from the fact that it demands a higher rental for the landlord and not for any other reason that would benefit the town.

We would therefore request that these applications are not approved and that the usage on these shops remain A1.

Yours faithfully

Please can you ensure that the parking area to the rear of this property is not used by customers to this business. I have recently moved from 64A Peach Street to Cross Street & I know that customers to the Spanish Restuarant are parking to the rear. This stops residents from parking & also increases the chances of damage or theft from other vehicles in this area. Unfortunately there are frequent thefts from cars here already including my own 1 week

ago and any increased, unauthorised use of this area should not be permitted.

Also these unauthorised vechicles block the access, & view, from the parking areas behind both sets of shops at this part of Peach Street. Many of which park on double yellow lines.

If this is ensured then I believe everything will be fine.

Dear Ms Lynch

Change of Use of 60 & 64 Peach Street, Wokingham
Your Refs: F/2002/7923 & F/2002/7924

I refer to the above planning applications and our recent telephone call where you intimated that your Planning Policy colleagues may raise an objection to the applications on the basis of Policy WSH21A.

I have looked at this policy and while I note the text proceeding it referring to the Wokingham Initiative (paragraph 8.69c)) the restriction of changes of use from A1 is not reflected in the Policy itself.

On the contrary the issue is directly and specifically dealt with in Policy WSH7 and this must be the dominant policy in respect of considering the merits of these applications.

Following the change of use of both these premises there will still be over 60% of this secondary retail frontage in A1 use and this is clearly 'sufficient to sustain a predominantly retail function'.

In my view the directly applicable and therefore dominant Planning Policy within your own local plan supports these applications and therefore I would expect planning permission to be granted. However, notwithstanding your own local plan, your policy colleagues do raise objections sufficient to concern you as the Case Officer, then I would ask that I be notified so that I may consider the issues raised and comment as necessary. I would certainly wish to have the opportunity to comment on any adverse policy matters raised, even if this causes a short delay in decisions being made, rather than receiving a refusal within the 8 week period. A refusal will inevitably result in the submission of planning appeals thereby causing significant further expense to both the Council and my client, obviously significant delay and disruption to my clients smooth management of these town centre properties and potential periods of vacancy contrary to the commercial interests of the town.

RPS Planning, Transport and Environment

If you have any queries in relation to the above or wish to discuss any matter arising please feel free to telephone me. I look forward to hearing from you.

Yours sincerely

Dear Sir/Madam

Town & Country Planning at 1990
64 Peach Street (Ground Floor) Wokingham
Change of use to A2

I refer to the above and enclose a planning application for the change of use of the ground floor of 64 Peach Street Wokingham to a Class A2 use. The application comprises:

1. 6 copies of the application forms including part 2 duly completed and signed.
2. 6 copies of the Section 66 certificate form duly completed and signed.
3. 6 copies of a site location plan (JTA2087:01/1).
4. Planning fee cheque for £220.

Background

The application site, along with 64A (first floor and nos. 54-62 and 66 and the rear parking and servicing courtyard, are owned by the applicants.

The rear yard is communal and is available for vehicle parking and servicing and refuse storage/collection.

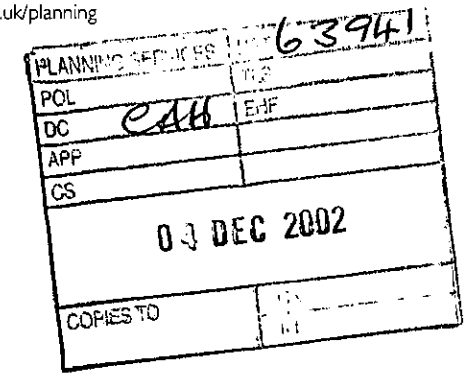

The Proposal

The proposal is to change the use of ground floor into a Class use for a proposed A2 Financial and Professional service. No external changes are proposed.

The commercial rear servicing and parking courtyard will remain available for the proposed new use.

Dear Mrs Hurst

Town & Country Planning Act 1990
Change of Use to A3 - 60 Peach Street (Ground Floor) Ref: F/2002/7923
Change of Use to A2 – 64 Peach Street (Ground Floor) Ref: F/2002/7924
Wokingham

I refer to our previous telephone conversations in relation to the above applications. I now attach 6 copies of existing ground floor plans 4158/01 for number 60 and 4158/02 for number 64 to enable registration and consideration of both application.

The applications are speculative at this stage although negotiations are underway with specific occupiers, and therefore it is not possible to supply proposed floor plans.

However, in relation to number 60 (change of use to A3) I am able to refer to application reference F/2001/5233 for number 54 Peach Street where the proposed trading area of the unit was approximately 60sq m. It is likely that the trading area in number 60 will be similar. This should be sufficient information to enable the Case Officer to make any necessary judgements in relation to activity levels.

The delay in registration is already causing the applicant problems in their negotiations with prospective tenants and therefore can I please ask that these business related applications be registered and promptly considered.

If you have any queries in relation to the above or wish to discuss the merits of the applications please feel free to telephone me.

Yours sincerely

KWilson

The Merits

The application site is located in a town centre secondary shopping frontage (Wokingham District Local Plan Deposit Draft 2000). Policy WSH7 is positive in respect of changes of use to A2 subject to the proportion of retail uses remaining sufficient to sustain a predominantly retail use and character to the frontage. Pursuant to this proposed change of use, 7 of the existing 10 units in the parade will remain in retail use and thus retail uses will still be the dominant use.

A parallel application, for change of use to A3, has been submitted in relation to no. 60 Peach Street. Development plan policies would not preclude a change of use for both properties, given that 60% of the frontage will remain in A1 use. The proposals will not result in a series of non-A1 units. The frontage is a 'Secondary Frontage' and therefore 60% A1 use is considered perfectly acceptable.

Without any external shop front changes the appearance and character of the conservation area is preserved. Should any perspective tenant require changes to the shop front these will be the subject of a further submission to the council.

Conclusion

The site is situated within a secondary shopping frontage where 'A Class' uses are appropriate. The change of use sought will still leave the predominance of A1 uses in the parade and the character and appearance of the Conservation Area will be preserved at least.

There are no technical reasons why the application could be considered as an unacceptable.

I hope to receive your prompt positive decision in due course but if you have any queries or if I can clarify any matter in relation to the application, please feel free to telephone me.

Yours sincerely

YOUR PLANNING APPLICATION

WHY DO YOU NEED TO MAKE A PLANNING APPLICATION ?

New buildings, major alterations and enlargement of existing buildings, and many changes in the use of buildings and land need planning permission.
The Town and Country Planning Acts impose a duty on Local Authorities to control these changes, and this means that a balance has to be found between the need and pressure for change, and the desire to protect the character of settlements and the countryside.
The merits of each application are, therefore, carefully examined.

WHAT ELSE MAY YOU HAVE TO DO ?

Listed Building Consent:	for works to a Listed Building; or for demolition works on land within the curtilage of a Listed Building or within a Conservation Area.
Advertisement Consent:	for the display of advertisements or signs
Building Regulation Approval:	for most new building or construction work.

Special forms are available for these types of applications.

You should also check whether there are any other regulations with which you may need to comply.

WHAT HAPPENS TO THE APPLICATION ?

It will first be checked to see if it is complete and if it is, it will be registered.

Consultations will be carried out with public and other bodies, such as the Highway Authority, or Local Parish Councils.

Publicity may be given to allow local people the opportunity to comment on your proposals.

The application will be considered in relation to the Council's planning policies and guidelines, the past history of decisions on that site or in the locality, other standards (such as parking, or visibility at road junctions), and any other material considerations.

The site will be visited by a Planning Officer You may be asked to submit more information, or to amend your application.

The application will then be considered either by a Planning Committee or Sub Committee (made up of Councillors) or by the Chief Officer responsible for planning matters. Objections to an application will be taken into consideration by the Committee or the Chief Officer.

Shortly after the application has been determined, you will receive a Decision Notice.

HOW LONG WILL IT TAKE ?

An application will generally be determined within eight weeks although a longer period may sometimes be required for a complicated application.

WHAT SORT OF DECISION CAN BE MADE ?

Your application may be approved.

Your application may be approved subject to certain conditions. These could impose restictions on the use of land or buildings, or require further details to be approved at a later stage, (e.g. materials or landscaping).
You may appeal against the conditions, but this opens the entire permission to review by the Secretary of State.

Your application may be refused. The reason will be listed on the Decision Notice.

WHAT HAPPENS IF THE APPLICATION IS REFUSED ?

You have the right to appeal against the refusal to the Secretary of State, but you have to do that within six months. Appeals can be dealt with by written representations by both sides, or by a Public Inquiry.
You may ask the Planning Officer whether an amended application would be more likely to receive planning permission.

DATA PROTECTION ACT 1984

'Information contained in this form is likely to be personal data within the terms of the Data Protection Act 1984, and as such will be held by the Council on computer (such as the PLANAPS applications processing system) and may be used by the Council only for purposes registered under the terms of the Data Protection Act.'
