How to...

Layers:

- Layer visibility can be toggled on and off by checking and unchecking the box to the left of the layer in the map layers list to the left.
- Layer groups can be expanded and collapsed using the arrow to the left of the layer group in the map layers list to the left.
- Some layers will not be visible when zoomed out. These layers will appear grey in the map layers list to the left.

Legend (Styling):

- Layer styling can be shown and hidden using the 'hamburger' menu (triple bar icon) to the right of the layer in the map layers list to the left.
- The layer must be toggled on (the box to the left checked) for the layer legend to be displayed.

Pop-ups:

- Left-click layer features on the map to see details about the feature.
- If multiple features have been selected use the next arrow in the pop-up to move between selected features.

Searching:

- Use the search box to locate an address or postcode.
