Afternoon,

Please see attached pictures noting the work that is needed.

1. Willow T1 just needs about 1.5 - 2 metres raised off the floor as noted in the photograph.
2. Oak T2 is overhanging the road and the driveway. There are a lot of dead branches and just needs maintenance work to ensure safety. Again the photograph shows the area that needs attention.
3. Oak T3 just needs the branches that have grown awkwardly to be removed so that a sensible and safe fence line can be erected. There are 2 photographs of this tree.

We would like it noted that we have an application already approved to remove the dead tree on the side of Park Lane, and that as part of the approval we have been asked to replant another Oak. Our intention is to plant at least 2 more if not 3 along the front fence line, and would like it noted that we agree with any wishes for replanting. We would like to plant more trees where possible, including another Willow as the owner's wife loves the willow currently in place! The intention is to add to the aesthetics of the property, and to make it a safe and wonderful place for the family to enjoy.

Kind Regards

Gareth Hacking
