COMMENTS:

I wish to formally object to the proposed development on the grounds that the existing transport infrastructure, including the very limited bus services, would be overwelled by such a large development on green land. Access to the proposed development includes the addition of a new road to the already congested Eversley Road / Langley Common Road roundabout and access to 50mph Observer Way creating considerably more congestion during peak hours.

The development would also overly extend the Arborfield Green towards Arborfield Cross and have a detrimental effect of the rural character of the area which is not in keeping with the character of the village.

I strongly request that this application be refused.
