COMMENTS:

Surely the safety issues in this country road would be a major issue. These plans must be rejected because hasn't WBC reached the limit for new housing developments .. it seems to be non stop in this area. Our road systems are choked at certain times of day and when roadworks are necessary getting around is a nightmare. How come other areas are allowed to build very few houses and WBC just carry on relentlessly. It is just not good for the borough and the people who love living here.
