COMMENTS:

I object to the application unless conditions are imposed regarding site access.

We are concerned that Hollybush Ride will be used as an access route for builders and suppliers vehicles for this development. The road upkeep is the responsibility of the Hollybush Ride residents and a development of this size will cause severe damage to the fragile road. Some of it could be cause the road to become impassable for residents. There are also height restrictions caused by overhead cables. Some have recently been damaged by a delivery vehicle. The delivery of high loads is sure to cause serious damage and subsequent inconvenience.
