COMMENTS:

I am ok in principle with this development but not if the access of construction vehicles is via Hollybush Ride which is a Restricted Byway and an unadopted Road maintained by the residents. Heavy construction traffic is not only damaging to Hollybush Ride but also dangerous to the residents. This is a narrow rural byway and totally unsuitable for large, heavy, construction vehicles. Please can you ensure there is a Construction Management Plan in place and only give planning permission if the access to the building site for construction traffic is via Kiln Ride which is a Byway Open to All Traffic (BOAT). Thanks and regards, Trevor
