COMMENTS:

Object: The traffic in the planning application area has been coming terrible from the past 2-3 years, it is becoming increasingly worse nowadays and I can't imagine how bad in future of such a huge increase in new houses build in the area!!! takes me 45 minutes - 1 hour to go to Reading Town to work and back home everyday (normally 10-15 minutes) , I am afraid I cannot support the planning application if it is not able to provide a clear, solid, feasible plan to rectify the traffic congestion problems.
