COMMENTS:

This application has come as a complete shock to us, as the notification postcard from the council was the first we had heard about it. The first floor rear extension will significantly reduce our light coming in to our two rear first floor bedrooms. It will restrict our view from our upstairs rear windows and will have an overbearing impact on us. From our rear bedrooms, we can see the rear of all the other properties on Colemans Moor Lane, and there are no upstairs extensions other than unobtrusive dormer windows.
