COMMENTS:

we have only lived in Woodwaye for just over two years, it is very quite rd we moved here as it was aways my dream rd to live in, as I was born in Woodley .this application we bring more misery to this nice little rd the slamming of doors from the carers

the parking out on the rd is a nightmare as it is .we've had to just pay to get our kerb drop bigger so we can get on our own drive way as random people that don't even live down our rd just park out side and go to work /of go shopping with no considertion on how we are getting off or on our drive ways ,the road is very narrow not like a normal rd .I have complained about this problem and all I got was old its not a council problem .so with the extra cars just parking along our rd will be more of a problem the drive way at no 36 is no where bigger enough to take two or more vehicle with out cars being moved each time .I know that these chiliden /young adults need a place to live but woodwaye is not the right rd
