COMMENTS:

We are concerned about the lack of regard for wildlife including many birds and some deer.

Also where the access point to this development might be no mention on this application at all. If it were to be the gravel lane right opposite our property this obviously be detrimental in more ways than one, to us and our neighbours opposite .

This would also ,presumably be the access for the builders what a nightmare that would be !

Time is running out we only received this notification today and the application has been with W DC for a considerable time. Please keep us informed
