COMMENTS:

I object to the planning application 253113, the building is oversize which is not in keeping with the Whistley Green hamlet and totally out of character. The lane leading to this site will not be-able to cope with the heavy traffic and especially when my gates are directly

opposite the entrance of the new building plot - we constantly are getting people already blocking our entrance and parking on verges etc. My cottage also had cracks appear from when the previous houses were built.
