COMMENTS:

i furvently object to the proposed use of this land as a fuel storage facility as I have worked almost next door (what was known as Taylor Freezer) for several years and every year saw the increased flood problems of the whole area. Apart from this the increase traffic would also have a huge impact on the village even if limited to the one end - just one huge lorry turning on that narrow road holds up all the bus timetable to and fro or school children etc. AS FOR THE SUGGESTION THAT WE ONLY HAVE A MAJOR FLOOD ONCE IN A 100 YEARS I AM 80 PLUS AND HAVE SEEN IT 3 TIMES IN THE LAST 50 YEARS
