COMMENTS:

We live directly opposite this proposed planning application, and strongly object to it.

Firstly, it is a large and overdeveloped scheme. The infrastructure in this area is already stretched, especially the Basingstoke Road which is heavily used, with traffic building up back from the M4 junction regularly. With regular flash flooding and main drainage problems experienced now, this will drastically increase.

Secondly, it takes away the open field feeling enjoyed by the residents in the Spencers Wood area.
