COMMENTS:

Dear council, I can see all neighbours ask for the road outside Liberty house to have yellow lines. I strongly object to this because I came home many times and I did not have space to park in the designated area and therefore I had to park on the street outside Liberty house. Or think of a way for people who live here to park their cars in case the parking lot is full. I believe the neighbours who request yellow lines potentially do not even own a car, otherwise they would have found themselves in my position of not being able to park in the residential designated space. Also we do not have visitor parking at Liberty House so where will visitors park if you put yellow lines on the outside street?
Thank you very much
