COMMENTS:

To the Planning Committee,

I strongly support the proposal for a mosque in Winnersh. As a professional Muslim woman in the UK, I recognize the need for accessible places of worship that also serve as community hubs. The growing Muslim population faces challenges due to the lack of a local mosque, making daily prayers and community engagement difficult.

A mosque is more than a place of worship it fosters inclusivity, supports charitable work, and strengthens community ties. Approving this proposal will enhance social cohesion and ensure equal access to religious and community services.

I urge the committee to support this important initiative, benefiting both Muslims and the wider community.
