Subject: Support for Mosque Construction in Our Community

Dear Wokingham Council

I am writing to express my support for the construction of the mosque in our local area. This project represents an opportunity to foster inclusivity, cultural diversity, and community cohesion. A mosque will provide a valuable space for worship and social engagement,

benefiting not only the Muslim community but also enriching the broader neighborhood through interfaith dialogue and shared events.

I believe this development aligns with our community's values of tolerance and mutual respect. I urge the council to approve and support this initiative, ensuring it meets all necessary regulations while promoting a welcoming environment for all residents. Thank you for considering this perspective.

Sincerely,

Tasawar awan
