COMMENTS:

As a local resident, and Chairman of the neighbouring Wargrave Cricket Club, I write in support of the proposed Padel Court at the Tennis Club.

The facility will introduce a leisure facility for which there will be significant local demand, with resulting social and health benefits for those who play.

The location of the court is within an established leisure area within Wargrave, part of the existing Tennis Courts and adjoining Recreation Ground. As a result it will not cause any harm to existing amenity levels in the area, with the nearest residents a considerable distance away.

Whilst the court structure may be visible from some parts of the Recreation Ground it will be viewed as part of an established leisure facility that is already in place and won't detract from the appearance of the area, or the openness of the Green Belt.

The proposal therefore offers notable benefits to the local community with minimal harm and obtains the support of relevant development plan policies accordingly.
