COMMENTS:

I would like to object to the revised plans.

The new plans have included a window that will be overlooking our garden (No. 81 Woodlands Avenue) and will result in a loss of privacy. In addition, with this extension being the main living area it will invariably be noisy, and with this window open it will increase noise pollution.

In addition to this, I would like to understand what precautions/plans are going to be in place to avoid any root damage to an established line of trees that will run parallel with the extension proposed.

These trees are very well established (over 30 years old) and the concern is that building work near to the trees could cause damage and kill the trees.
