COMMENTS:

Winnersh community has long been home to people of various cultural, ethnic, and religious backgrounds, coexisting harmoniously. The introduction of a facility primarily serving one specific group may unintentionally create an imbalance, altering the inclusive nature that makes our community unique. It is important to ensure that any new development fosters cohesion and remains reflective of the diversity that defines our area.

A development of this scale is likely to significantly increase traffic congestion, parking demand, and strain on local infrastructure. Given that worship centers and community facilities often attract visitors beyond the immediate neighborhood, there is a valid concern about increased vehicle movement, noise levels, and parking shortages, especially during peak gathering times. This could negatively affect the daily lives of residents.
