COMMENTS:

After doing some research on the location of the proposed change of use building I have concluded, even though the unit is based in a small industrial area of Winnersh, the parking implications are huge on average 180 people visit local mosques at least once a week generally on a Friday, the implications of this for the surrounding businesses is a concern. I have been and looked at the car park situation which is unsatisfactory. I conclude that Halfords, Wickes and Pets at Home will have their car parking space is used. I live in Winnersh and already find it difficult to find a car parking space when visiting the space. I have detailed photographic evidence I would like to include in this objection. Also, the impact at this junction with its close proximity to the roundabout at showcase cinema. It's going to cause considerable traffic chaos.
