COMMENTS:

As a part of Wokingham, I strongly support this proposal. The Muslim population has tremendously increased in the area with no place to worship locally we are forced to travel 25-40 mins everyday with family to pray at other places. This will not only offer a place for cultural activities, awareness among the community but will also make the local Muslim community feel integrated and welcome in Wokingham. Prayers five times a day, activities for children and women, youth clubs, etc. MCCW is already doing so much to bring the community together.
