COMMENTS:

I object to the proposed change of use for the property at 1 Pascal Crescent, for the following reasons.

First, there is the parking problem. My family already faces parking difficulties because people frequently park in our front yard, blocking the way out or in for us. A children's home will undoubtedly bring more people, and with only two parking spaces, other staff, social workers, doctors, visitors, and anyone associated with it will park on the street or in nearby areas. Given the current street king situation, the change will exacerbate the problem.

Furthermore, the nearby theater is often packed with vehicles during events, staff and guests will likely park there, further congesting the streets, making it difficult for large vehicles or emergency vehicles to pass, increasing the risk of accidents.

Second, it will disrupt the environment. I chose to move here because it is quiet. The children's home will not only cause parking problems due to increased foot traffic, but the staff shifts, which typically take place at night, will also disrupt the quiet environment and

affect sleep quality. Furthermore, the increased likelihood of emergency services, as based on some research, in some places can be more than 200 calls per year, and likely the police and ambulances will come here at the same time, which it will undoubtedly be a hassle for us, especially at night. Made my family felt pressure and anxiety, knowing there is always a chance to have something wrong happen.
