COMMENTS:

We strongly object to this planning application.

There are many issues still with the original Bellway Long Acre site which is unfinished. Playground still not completed.

The new plans state a bus route will go through the site. This was never disclosed when we bought our house at Longacre and certainly was not in the plans we originally saw else we would have never bought the house.

The proposed road from Arborfield Road and joining with Shepherd Road to come out at the TVSP will cause chaos down a residential road.

I do not feel that the plans address about the lack of any community area. The existing, incomplete playground is small and inadequate for existing Longacre community.

I request WBC to deny permission to this development plan
