COMMENTS:

Listen and read the comments of the local community. Enough is enough. Build houses by all means, but make it fair. Let other areas take some, and stop putting the lions share of them in Shinfield, without addressing what everyone has been asking for for years. A community, not a building site. Where are the shops? Where are the schools? "Not our problem". we hear you. Falls on deaf ears time and time again. Buses reduced, speed limits not enforced. All the houses in long acre have created a speeding issue in Hawthorn. Honestly, i give up. You never listen, and do what you want as usual. Finish the park in long acre. You should be embarrassed to call yourselves a Council. Hold the developer and yourselves to account for the sake of everyone in Shinfield, and not your own pockets with money. To think of all the additional money you receive thru the payments from the develop, council tax, government incentives. And what have you actually done for Shinfield?
