Dear Mr Patel

TREE PRESERVATION ORDER NUMBER: 408/1988
APPLICATION NUMBER: 251250
LOCATION: 11 SALMOND ROAD, SHINFIELD, WOKINGHAM, BERKS, RG2 8QN

I am writing to you regarding your application to carry out works to protected tree(s), which was received on 26 May 2025 and validated on the 27 May 2025.

I can confirm Wokingham Borough Council **consents with conditions**, to the following work being carried out to tree(s) included in the above-mentioned Tree Preservation Orders (TPO):

Approved works to Single 1 of TPO 408/1988:

T1, Swedish Whitebeam
- Fell.

Reasons stated for works:

"Recently, a large branch unexpectedly broke off and fell, a video of this incident is attached, along with recent photos showing visible signs of infection or disease affecting the tree. The structural integrity of the tree appears compromised, and we are extremely concerned that further branch loss, or even a full collapse, may occur. The tree is positioned close to our house and parked vehicles, posing a significant threat of damage or injury. Given these developments, we are requesting that the council urgently reassess the condition of the tree and consider the appropriate next steps, which will be having the tree removed."

Officer's comment:

The "signs of infection or disease affecting the tree" as shown in the submitted Photo 2 are lichens, which are organisms commonly found on trees and other surfaces and are not harmful to trees. However, at the Council's Tree Officer's site visit on 16 June 2025, the subject tree was observed to have a below average foliage density. A bracket of *Inonotus hispidus*, a fungus that causes decay in trees was also observed on a branch facing the property at 11 Salmond Road. Sounding test revealed significant dysfunctional wood in the main trunk and some of the

branches. In view of the tree's poor physiological condition, the Council raises no objection to the proposed removal.

The consent is granted subject to the following conditions:

1. The above works must be completed before **25 June 2027** and in the event of the works not being completed by that date, further consent will be required.
2. Work must be carried out in accordance with British Standard 3998 – 2010 'Tree work - Recommendations'.
3. Climbing spikes shall not be used whilst undertaking any form of works on living trees, except on trees to be felled.

4. Replacement planting:

The owner has a duty under Section 201(b) of the Town & Country Planning Act to replant another tree of an appropriate size and species in the same place as soon as they reasonable can. This replacement tree(s) will be covered by the existing Tree Preservation Order. The new tree would be subject to the same requirements for a tree works application if you intend to carry out works upon it in the future.

- Following the removal of the tree as authorised by this notification response, a minimum of 1 no. of Rowan (*Sorbus acupuparia*) or Swedish Whitebeam (*Sorbus intermedia*) of "standard" or "selected" size (2.5 – 3.5 metres tall) at time of planting, is to be planted as close as reasonably practicable to be removed, during the planting season (Nov – March) following or at the time of the felling of the tree, whichever is soonest.
- Planting should be carried out in accordance with clause 10 (Planting) of BS 8545:2014 'Trees: from nursery to independence in the landscape – Recommendations'.
- Should the replacement tree be removed, die, or become severely damage or seriously diseased, it shall be replaced by a tree of a similar size and species to that originally planted. Modifications to the requirements of this condition must be agreed in writing with Wokingham Borough Council Tree and Landscape Team.
- Please let the Council know when the replanting has been carried out so that the Tree Officer may come and inspect the tree(s).
- PLEASE NOTE: The requirement to replant is the responsibility of the tree owner even if the application was submitted by another person.

Reasons for conditions 1-4.....

1. To ensure that our records remain accurate.

2. To ensure the health, safety and visual amenity of the tree(s) and ensure works are undertaken in accordance with recognised arboricultural good practice.
3. Spikes can cause extensive long-term damage to trees.
4. To retain the present visual amenity value of the area and ensure continuity of tree coverage within the Wokingham Borough.

Informative:

If you are aggrieved by any of the conditions attached to your consent, you may appeal to The Planning Inspectorate (PINS). Because of coronavirus (COVID-19), you currently can only make a planning appeal online. You cannot currently apply by post.

For more information go to:

<https://www.gov.uk/government/publications/tree-preservation-order-appeal-form>

Telephone: 0303 444 5570 or e-mail it to: treeandhedgeappeals@planninginspectorate.gov.uk
Your appeal should be received within one month of receipt of this decision or any such longer period as the Planning Inspectorate may allow.

You are advised that this letter is in respect of the **Tree Preservation Order only** and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent would be required.

If we can be of any further assistance, please contact the Tree and Landscape Officer via email to: development.control@wokingham.gov.uk

Yours sincerely,

Chris Hannington
Trees and Landscape Team Manager

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic metres or sell more than 2 cubic metres of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website:
www.forestry.gov.uk
